2. Beneficiary Designation

Complete this section to designate who should receive account assets in the event of your death, or in the case of a joint account, the death of both account owners.

Assets are divided among primary beneficiaries first. If there are no surviving primary beneficiaries, assets are divided among secondary beneficiaries. Attach a separate sheet if you have more than four beneficiaries, and provide all of the information requested here for each beneficiary.

Your most current beneficiary designations replace any previous instructions we have on file.

Note that once you have indicated beneficiaries through the proper execution of this form, a will, trust or other legal document will not change the disposition of these accounts upon death. Because this can affect your tax strategies and estate planning, we suggest you consult with your lawyer or other tax professional for additional information and advice.
